FACTS ABOUT VALUE IN HAND TOOLS...

Husky Hand Tools are built to last a lifetime. That's why Husky's aim is to give you value in hand tools—you depend on them and you deserve the best! Yet, they're priced reasonably.

You also have these extra built-in features — **sockets** are "thin walled" for working in restricted areas yet strong — "chamfered" to slip on nuts and bolts easily—"Four-way ball grooved" for quick, positive attachment to any drive tool — **Ratchets** and **Wrenches** are forged — polished to a mirror chrome finish — and hardened for extra strength. Sets contain a complete and matched assortment of tools neatly packaged in reusable boxes for easy carrying and storing. You have point of purchase header cards in most sets explaining contents and applications.

Husky sockets and socket wrench attachments are backed by 69 years of precision manufacturing experience for craftsmen to professional quality standards.

GUARANTEE

We guarantee all our products to be of "Husky" quality, free from imperfection in workmanship and material. We will gladly replace without charge any Tools showing defects of material or workmanship after such Tools are received at the factory for examination. We cannot, however, replace abused or misused Tools, nor allow claims for labor or damages.
